EXPERIENCE

Vudu Walmart Labs

Sunnyvale CA
Sep 2015 - Present

Sr. UX Architect

- Directly improved user acquisition and increased average revenue per user (ARPU) by translating complex business requirements into simple and creative UX strategies for promotional/marketing related projects across platforms
- Led Vudu's NextGen web redesign process with user-centric design solutions for 90+ functionalities. Collaborated closely with executives, product management, and engineering to ensure delightful and easy-to-use features
- Continue optimizing experience on iOS with intuitive and engaging elements
- 1st place of 2016 Vudu Hackathon among 16 teams. Designed and developed a location-based movie recommendation system

TIBCO

Palo Alto CA
Sep 2012 - Sep 2015

Lead UX Designer

- Led design strategies and directions for Smart Apps, a product group exploring new technologies and innovation for TIBCO
- Defined & designed UX for Clarity TIBCO, a large-scale enterprise data preparation & cleansing tool for both professional data analysts and non-technical users
- UX internship program hiring manager & TIBCO university program UX representative

General Motors

Warren MI
Jul 2010 - Jun 2012

Interaction Designer

- Designed interfaces for Bluetooth, phone, text and email applications for Cadillac CUE, an infotainment in-car system embedded in 2013 Cadillac and Chevy vehicles
- Designed a vehicle-monitoring Android app for OnStar; the design process included rapid prototyping, icon/graphic design, theme design, and interaction flow design

EDUCATION

University of Michigan Ann Arbor MI
MS in Information, HCI specialization

National Chengchi University Taipei Taiwan
BA in Journalism, Internet & Multimedia program
